

EU Regulation No 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Wiltan Ltd has recognised the impact of REACH and has played an active role in establishing the steel industry response to the requirements of the new chemical substances regime through the European Federation of Iron and Steel Industries (Eurofer).

We have carefully and systematically identified our obligations under REACH and have established a dedicated specialist to ensure we fulfil our obligations in a timely and efficient manner.

As Wiltan Ltd is an international company we will meet our responsibilities as a producer or importer of the substances, preparations and articles that we supply in Europe. However, if you are acting as an importer from our non-EU operations you will be responsible for your own obligations under REACH. Please contact your non-EU supplier for further information.

Under REACH, the steel products we supply to you are designated as articles. The following declaration applies to the articles that Wiltan Ltd supplies:

1. We confirm that we understand our obligations under REACH.
2. We will comply with Article 33 of REACH regarding substances of very high concern. That is, we will provide you with sufficient information about any steel products we supply that contain >0.1% (weight /weight) of substances of very high concern (SVHC) to allow safe use of the product. This duty will only apply to substances identified in the Annex XIV list (as time to time amended and published by ECHA).
3. We will continue to provide material safety data sheets (MSDS's) although the format may change from that with which you have been familiar.

As REACH requires effective communication throughout the supply chain, we have identified the following points of contact for our customers:

For general information and day-to-day contact, commercial and technical interfaces will be able to provide the relevant information.

Within our business units, we have identified a REACH coordinator, who will be able to deal with more specific questions, this is Laszlo Kapusi.

E-mail address Laszlo.kapusi@wiltan.co.uk
Phone No. 01495 750711

Many thanks for your cooperation in this matter.
Yours faithfully,
Laszlo Kapusi
General Technical contact
