

Quality Policy Statement

It is the policy of [Wiltan Magnetic Components](#), and its staff, to provide product and service, which satisfies the expectations of our customers, to deliver them on time and without defect.

Targets are constantly set, monitored and continually evaluated through management review.

We are fully committed to achieving the highest standard of personal and corporate excellence. The aim is to improve our quality through continual improvement as an integral part our operation.

The company's Quality System is structured in accordance with BS.EN.ISO 9001:2000

The responsibility for quality is with everyone jointly and individually in the company – Directors, Managers and Staff and all personnel are fully conversant with the company's objectives through ongoing training, education and awareness programmes.
