

WILTAN
magnetic components

Dear Customers,

Covid-19 & Wiltan Limited

We have in the last few weeks consistently complied with government guidelines to protect the health & wellbeing of our staff, both within our offices & our production shop floor. Understandably the majority of them are not able to work from home.

Last week we gave all staff the opportunity to continue working to produce components that have been deemed critical to the frontline, including but not restricted to components used in back up power supplies for hospitals & various items of medical equipment. I was heartened that the vast majority opted to continue coming to work.

We all acknowledge the massive thanks & respect we owe amongst others the obvious amazing NHS medical & ancillary staff, care workers, social workers, emergency services staff, supermarket workers & all those working in the food chain, delivery drivers, postal & courier staff, local government employees, including refuse collectors.

However, like our staff there are many in the hidden heroes & "key workers" beyond the frontline services whose input is just as critical to the fight & the outcome of our fight against this pernicious virus. For those amongst our own staff & yours, who continue to produce & manage the production we are incredibly grateful. We all owe them a huge debt, for putting their understandable fears to one side in the knowledge that what they are producing may contribute to saving lives.

We are hoping that at current levels we will not find any huge disruption to you & we will do everything in our power to keep supplies to you running smoothly. But please bear with us.

For all those staff who have agreed to continue, I would like to place on record my thanks to them for their dedication and commitment to do their bit in the face of this pandemic.

If you have any further questions please do not hesitate to contact myself or your usual contact here at Wiltan.

Kind Regards

Zouhair Itani
